REVOLUTIONARY

ONEWOOD is made from wood fibers from fast-growing tree species, which are glued and formed into large blocks of wood. Gluing and thermal treatment makes ONEWOOD as durable as tropical wood.

SUSTAINABLE

Each wood fiber of a ONEWOOD block is sourced from fast growing and sustainable plantations. Due to its homogenous property, it is versatile, durable and dimensionally stable. It is also considered termite-resistant, water-repellent and weather-resistant. FSC® 100%.

VERSATILE

Versatile for indoor and outdoor use, especially decking as well as gardening and landscaping.

Dimensions (in mm)

	THICKNESS	WIDTH	LENGTH
1	22	148	5.500 (Decking)
2	24	225	5.500 (Decking)
3	45	100	5.500
4	55	100	2.000
5	35	105	2.000
6	180	300	2.500
7	180	300	3.000

1-5: 4 edges with 3mm round bevel
